FOR THE CHILDREN

My little girl suffered for three years from a large Abscess on her hip, the result of a fall and dislocation. The Abscess was large, with six openings, all of which discharged purs. I was induced by friends to give her S. S. S., and by the time the fifth bottle was inished the Abscess was entirely healed, and the child was well and happy.—Mrs. J. A.

I had three little girls who were attacked with obstinate ECZEMA or Blood Trouble, which at first resembled heat, but soon grew to yellow blisters, some of them quite large. One of the children died from the effects of it, but we got Swift's Specific and gave to the other two, and they soon got well. S. S. S. forced out the poison promptly. The cure was wonderful—J. D.
